Founded in 1996

Manufacturing attachments
since 2008

More than 50000 attachments
delivered

Localised in Poland, 120 km
from Warsaw capital & air-
port

Focus on quality & customer
service

Automatic hydraulic quick-hitches

- **Pin-grabber quick-hitches with Variable Pin Centre** adhering to EU Machinery Directive: up to 120mm pin,
- **CW compatible:** CW00 - CW55,
- **S standard ready:** S30 - S90,
- **MS compatible:** MS01 - MS21 ,
- **Safety features** (double profiled front hook, visual indicator of engagement, rear mechanical pin lock, front mechanical pin lock, hydraulic check valve etc),
- Optional **lifting hook**

Tilt-motor quick-couplers

- Up to 180 degrees tilt
- All couplers (mechanical & hydraulic) available with tilt motor
- All safety features from standard automatic models
- Lightweight but strong construction
- **Smart hydraulic line placement**
- **Lifting hook** as option

Mini-tilt couplers

- Simple & strong construction
- **Easy to service**
- **75 degree tilt in total**
- Available for excavators of 0.8-3.5 t operating weight
- **Direct fit (factory bracket) or a coupler bracket: S-system, CW or MS**
- Retains high breakout force

Pin-grab quick-couplers - FACTORY BRACKETS PICK-UP

- Perfect for factory **OEM brackets**
- **Connect with most brackets with two pins**
- **Automatic**, manual, **swiveling/tilting** options available
- **Safety features** (pilot operated check valve)
- **Lifting hook** option
- In line with all European Directives like the Machinery Directive and other norms

2 - 50 t **QC** HYDRAULIC QUICK-COUPLERS

MS, S-System, CW, pin-grabber, and other quick-coupler systems are available in both manual and hydraulic automatic versions.

2 - 23 t **QCU** TILT-MOTOR HYDRAULIC QUICK-COUPLERS

Quick-couplers of any type featuring a tilt-motor for swiveling capability.

10 - 50 t **DBF** DIGGING BUCKETS FOR QUICK-COUPLER

The flat top suits excavators that change attachments on a quick coupler. With Economy, Standard, Heavy Duty and Rock versions, one shape covers most kinds of soil.

10 - 40 t **GDH** GRADING & HYDRAULIC-TILT BUCKETS

Hydraulic tilt grading buckets shape slopes and leave a level finish on uneven ground.

10 - 50 t **DB** HEAVY-DUTY & ROCK BUCKETS

The classic digging bucket for most materials, with a rock version for harder ground.

10 - 45 t **DCB** GRADING BUCKETS ROUND PROFILE

The round profile lets material flow out with little drag. Use it to grade surfaces and to dig and clean ditches.

2 - 75 t **RIP** EXCAVATOR RIPPER TOOTH WITH PROTECTOR

The single shank breaks up tough soil, rock and frozen ground.

12 - 40 t **MR** EXCAVATOR HEAVY-DUTY MULTI-RIPPER

The Multi Ripper goes into the ground at several points at once to break up and loosen compacted material.

12 - 40 t **DSX** SEVERE-DUTY NORDIC DIGGING BUCKETS

Nordic deep digging buckets for excavators dig deep in hard and difficult soil.

2 - 40 t **PS** SCANDINAVIAN GRADING BUCKETS (TILTING)

A Scandinavian grading profile that also works on a tiltrotator. It grades and levels many kinds of surface with good control over the cut.

2 - 35 t **CB** GENERAL PURPOSE LOADER BUCKETS

A hydraulic clamp arm closes onto the load, and a double pilot check valve holds it shut if a hose fails.

12 - 55 t **SDB** HEAVY-DUTY SKELETON BUCKETS

The SDB separates material as you dig. Its interlocking ribs sort and sift different materials.

2 - 40 t **AC** EXCAVATOR ASPHALT/TARMAC CUTTER

A 450 mm steel disc, symmetrical (ACs) or asymmetrical (ACa). It makes clean cuts in asphalt for road repairs, utility trenches and pavement and kerb work.

2 - 30 t **GRB** GRADING BEAMS FOR EXCAVATORS

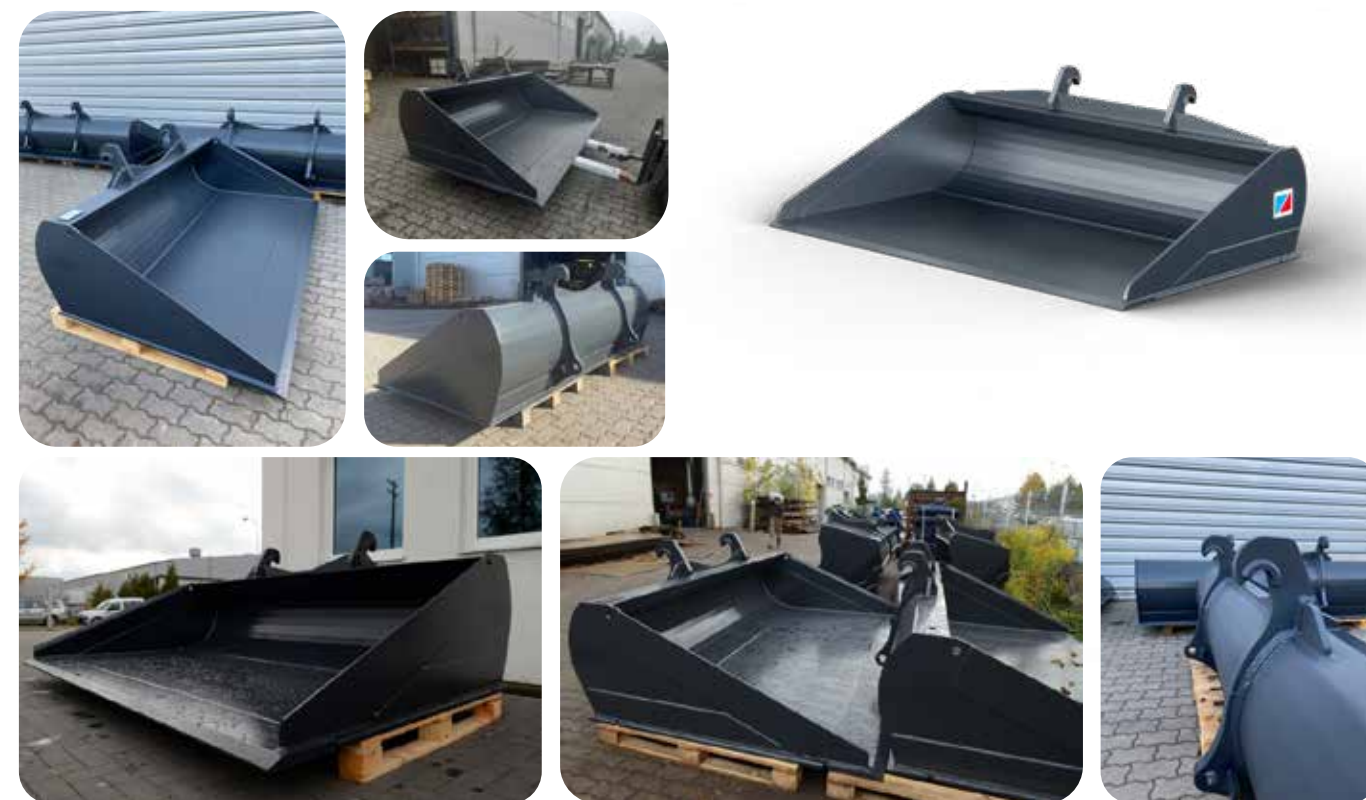

A grading bar on your excavator levels large areas to a smooth, even finish for driveways, roads and building sites.

2 - 30 t **FGP** GENERAL PURPOSE LOADER BUCKETS

General purpose bucket for a front loader, for loading, unloading and stockpiling loose material.

2 - 20 t **FLB** HEAVY-DUTY SKELETON BUCKETS

Wide, low levelling bucket for a front loader, made for fine grading.

[illegible]
