

CB-mini HYDRAULIC CLAMP DIGGING BUCKET

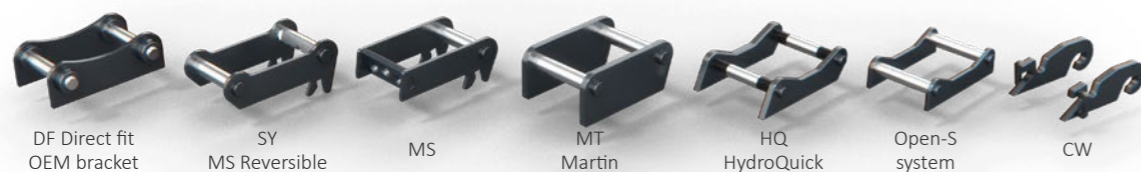

Key features:

- **S355JR2 steel on body**
- **HB500 cutting edge**
- **Strong & durable clamp design**
- **Tiltrotator Compatible**
- **Double pilot check valve** for

safety and work-holding

Optional features:

- Exchangeable grip add-ons
- Skeleton version available

Transform Your Mini-Excavator into a Multifunctional Powerhouse: The Clamp Bucket

Equip your mini-excavator for diverse material handling applications with the innovative **Clamp Bucket attachment**. This hydraulic attachment goes beyond traditional digging, offering exceptional performance for grabbing, sorting, and even light demolition tasks. Its versatility expands your mini-excavator's capabilities, maximizing productivity on any project requiring a multifunctional solution.

The Mini-Excavator Clamp Bucket is ideal for:

- Loading, unloading, and sorting various materials (rocks, pipes, debris, etc.)
- Landscaping projects requiring precise material placement
- Light demolition tasks and clearing brush
- Streamlining workflows in confined spaces
- Any application demanding versatility and efficient material handling

Upgrade your mini-excavator's capabilities and conquer diverse challenges with the Clamp Bucket. Contact us today to explore the perfect fit for your machine!
